

ACUTA announces the release of ACUTA Regulatory Information Management (ARIM™) version 3.0.0

Marlborough MA – January 27, 2017 – ACUTA announced the release of ACUTA Regulatory Information Management (ARIM) version 3.0.0 – a next-generation solution that redefines how Life Science companies manage regulatory information. ARIM brings together the data, content, and interactions with agencies needed to deliver a fully informed Regulatory Information Management (RIM) solution. Designed to work in the cloud or on premise, ARIM provides a centrally coordinated user experience while ensuring compliance. It supports the processes of Regulatory Affairs and Operations, regardless of their complexity or geographic location, and offers global access.

“ACUTA’s goal is to offer this next generation RIM solution to enable companies of all sizes to adhere to strict standards set by regulatory authorities around the world, and help them collect and manage regulatory information with reliability” said Shy Kumar, ACUTA’s Founder, President and CEO. “With this release we are very proud to announce the introduction of the **Registrations Tracking** module! ARIM users now have the opportunity to plan and track their marketing and investigational applications around the world. This release also offers the capability to publish **Paper submissions** for agencies still accepting paper, which is another critical requirement to support Rest of World (ROW) submissions.”

ARIM is designed to assist Life Science companies in managing their regulatory information more efficiently and cost effectively. This v3.0.0 release includes a significant list of new capabilities such as HTML5 support along with improvements to existing features and functionalities, providing a much richer user interface and end-user experience.

The ARIM Cloud offering is powered by Microsoft Azure and advances the Life Science industry’s urgent drive for an affordable solution using technology tailored to small and medium size company needs, with increased efficiencies and cost savings.
