

# ACUTA Introduces Regulatory Information Management (RIM) Solution for Life Sciences

**Washington DC – September 22, 2014** – To an audience of more than 300 attendees at the DIA EDM and ERS 2014 Conference, ACUTA unveiled ACUTA Regulatory Information Management (ARIM) – a next-generation solution that redefines how life sciences companies manage regulatory information. ARIM brings together the data, content, and interactions with agencies needed to deliver a fully informed Regulatory Information Management (RIM) solution. Designed to work in the cloud or on premise, ARIM provides a centrally coordinated user experience while ensuring compliance. It supports Regulatory Affairs and Operations processes regardless of their complexity or geographic location, and it offers global access.

“ACUTA’s goal is to offer this next generation RIM solution to enable companies of all sizes to adhere to strict standards set by regulatory authorities around the world and help them collect and manage regulatory information with reliability”, said Shy Kumar, ACUTA’s Founder, President and CEO. “With our cloud model, there is no need to purchase hardware or software, and no installation or maintenance is required. In other words, for the first time you can have a fully compliant system up and ready to use in a matter of hours.”

ARIM is designed to assist Life Science companies in managing their regulatory information more efficiently and cost effectively. It covers all aspects of the RIM process and offers a cost-effective solution to companies of all sizes.

The ARIM Cloud offering is powered by Microsoft Azure and advances the life sciences industry’s urgent drive for an affordable solution with technology that’s tailored to small and medium size life science company’s needs, with increased efficiencies and cost savings.
